FILM - Acquisto Collettivo 2010

Tomb of the Pharaoh Queen

Old man Hawkins used stolen artifacts from the tomb of an Egyptian pharaoh queen as props in his carnival ride, which is now said to have magical powers. What begins as a typical carnival ride quickly takes a chilling turn after the ride breaks down. Riders are confronted by the queen and are quickly transported to the depths of her tomb. Leg-paralyzing fear ensues as riders try desperately to escape attacking mummies, spike traps, flying scarabs, spiders and much more. Version also available without Hawkins character.

Length: 5:18 with Hawkins / 4:18 without Hawkins / 3:02 short version
Languages: 5:18 version English / 4:18 and 3:02 versions No Language

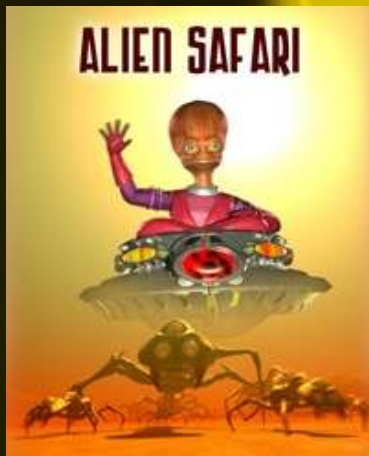

Format: Stereoscopic 3D / DIGITAL 1920x1080

Monsters of the Abyss

Dive to the depths of the ocean to discover one of the most hostile places on the planet... where there is no sunlight, it's near freezing - and life is unlike anything we have ever experienced. State of the art 3D digital animation takes viewers on a journey to the deep sea to discover underwater volcanoes, strange animals, and much more.

4D GLASSES

**We can sell
PROJECTION LENS
in fiber or CRYSTAL**

**And stereoscopic glasses
in POLARIZED
and ANAGLYPH versions**

**4D model
With a robustness frame
and comfortable line
grant a better vision,
more clear and extended**

**All our optic are maded
with 7 LEVELS
of polarization
They grant the best quality
of vision and reduce
eye strain**
